Company, Unions Reach Deadlock On Phone Strike

WASHINGTON, March 26 (AP)—The far flung Bell telephone system and a federation of 39 unions docked over industry-wide bargaining today as nervous government conciliators eyed the April 7 deadline for a cross country strike.

The policy committee of the national federation of telephone workers, an independent amalgamation of unions representing more than 287,000 workers, proceeded with strike plans after these know-nothing developments:

1. Assistant Secretary of Labor John W. Gibson went to New York to talk over the approaching crisis with officials of the American Telephone and Telegraph company, whose long distance lines would be the first to feel the shutdown.

2. The AT&T officials yesterday referred to the Bell system's various operating companies the NFWU's proposal that a bargaining committee be named to negotiate on a nationwide basis the union's ten-point demands. These include a \$12 weekly pay increase.

3. The union policy committee considered that it was a rejection of its proposal. It countered by turning down "anything less than system wide bargaining at this stage of the game." It also rejected the union's demand that the company in Ohio, New York, Michigan, Illinois, New Jersey and Wisconsin agree to a "no strike" demand, with certain conditions.

4. The union named a three-man committee to explore all alternatives which might be available or may hereafter be suggested as a means for reasonable settlement of the ten national bargaining items.

5. Union officials said they would not accept the arbitration plan of the various Bell companies, Joseph A. Beine, committee chairman, told reporters the policy committee had decided that:

"The arbitration of all or any one of the ten national items would require the company to agree to the terms of the union's proposal, which would require the introduction of further inequalities and inequalities."

The company statement issued in New York said "we think this is the right place for the telephone business."

To carry it out effectively each company must work in the local conditions," the statement added. "In the same way, local telephones are operated under local conditions and are regulated by public service commissions in the various states."

Train Halted, Milk Seized in Big Dairy War

NEW ORLEANS, March 26 (AP)—The milk supply for New Orleans was lessened today as sympathizers of the American Farmers Union (AFU) stopped trucks carrying milk from the city's largest dairy plant.

AFU leaders said the trucks were carrying milk from the city's largest dairy plant. The trucks were carrying milk from the city's largest dairy plant.

Another report said seven shots were fired at three trucks last night near the city's largest dairy plant.

Expect Three Weeks' Strike

Wash. Post, March 26 (AP)—The AFL union leaders said they expected a strike to last about three weeks.

Asked whether he was concerned over wage demands, the president said he was not.

CAA Okays Five Sites for Buhl's Proposed Airport

BUTLEY, March 26 (AP)—Five sites for a Buhl municipal airport within one mile of the city limits have been approved by the city council.

Chet-Moulton, chief director of aeronautics, and H. K. Olden, chief of the city's aeronautics department, were in Buhl yesterday inspecting the sites.

Six Children Die in Wreck

Six children were killed instantly when this auto was struck by a Los Angeles limited at crossing near Kayville, Utah. The driver, Wilford Wheeler, his 15-year-old son and a 21-year-old daughter riding in the front seat, were killed. Two other children, a 10-year-old daughter and a 12-year-old son, were seriously injured. The car was carrying a party of 12.

WASHINGTON, March 26 (AP)—House Republicans chided up a major victory today in their drive to slash up to \$6,000,000,000 from President Truman's fiscal 1948 budget.

Voting almost as a unit, the GOP majority pushed through a fiscal 1948 supply bill late yesterday cutting \$78,825,620 from the appropriation requested for the labor department.

The final count was 343 to 39, with 218 Republicans and 125 Democrats voting in favor, and one Republican and 38 Democrats against.

From the labor department came protests that the cuts would disrupt services provided by the bureau of labor statistics for labor, management and the government.

Hansen Plans To Start High School There

HANSEN, March 26—The Hansen school district trustees have decided to start a high school in Hansen, Idaho, and terminate the high school consolidation with Twin Falls.

John Bennett, Hansen farmer who is doing considerable research work, has agreed to teach practical agriculture on a part-time basis.

The superintendent said the trustees had voted the pay of all teachers considerably less than a minimum wage scale of \$2,000 for high school teachers and \$2,200 for high school instructors.

Hope Fades for 122 Men Trapped by Explosion in Coal Mine; Nine Rescued

CENTRALIA, Ill., March 26 (AP)—Hope of life for the last of 122 men entombed by a coal mine explosion near here Tuesday afternoon all but flickered out today, but cheerless rescue workers kept digging away nevertheless in a gaseous, clogged-up passage 240 feet underground.

The picking and the tolling slow work in the thick of the lingering fumes, in about 20 hours had accounted for only nine survivors of the 131 who were caught in the blast just a few minutes before quitting time.

Old hinds at such things were agreed: They didn't have a chance. But the sleepless families of the men, quiet and staring, stayed on at the bleak tipple to face the worst.

Some of the dead had been counted, but there was no hurry to get the bodies up to the top. The main effort was centered on burrowing through fallen timbers and other debris and sealing the rooms off one by one as they were searched.

Fred Hellemyer, chief electrician of the mine—the Centralia Coal company's No. 5, at the south edge of Centralia, went down the shaft shortly after the blast, and he was one of the first to say the men not saved in the first few hours didn't have a chance.

But not all hope had been abandoned. Rescue workers went down the shaft shortly after the blast, and he was one of the first to say the men not saved in the first few hours didn't have a chance.

U. S. Envoy To Tito Will Remain Here

WASHINGTON, March 26 (AP)—President Truman said today that Ambassador Richard C. Patterson is not returning to his post in Yugoslavia.

Mr. Truman made the announcement at his news conference in response to a question but gave no further explanation. He said that Ambassador William D. Pawley, who is here for consultations, will return to Brno.

The disclosure that Patterson is not going back to Belgrade came on the heels of Archibald Lamb's resignation as ambassador to Poland so that he can "speak and write about the state of the world in that country."

Patterson has been in the United States since late November. He has given a series of lectures on Marshal Tito and conditions in Yugoslavia since he arrived in the United States.

Othman Eyes "Freedom" of Congressmen

By FREDERICK C. OTTHMAN
United Press Staff Correspondent
WASHINGTON, March 26 (UP)—It must be wonderful to be a congressman of congress, slinging insults at his neighbors and seldom, if ever, getting a poke in the eye.

OTTHMAN

"That's introduction enough to the gentleman from Massachusetts," said John W. McCormack, who announced he didn't like the attitude of the gentleman from Wisconsin, Frank B. Keefe. (The gentleman was debating the labor department appropriation bill). "The gentleman from Wisconsin," said the gentleman from Massachusetts, "has the habit of charging anybody who disagrees with him of uttering in a loud manner the word bunk, and other common phrases." "Hear, hear," said the gentleman from Wisconsin.

"We can assume from listening to him," continued the gentleman from Massachusetts, "that the only superintending member of the house is the gentleman from Wisconsin."

The gentleman from Wisconsin took a bow, while the gentleman from Michigan, Clare E. Hoffman, strode forward.

"When the gentleman from Wisconsin characterizes anything I say as bunk, I reply that, as a fellow citizen," continued the gentleman from Massachusetts, "ignoring the approaching gentleman from Michigan."

The gentleman from Wisconsin applauded, but the gentleman from Michigan said he had something to say to the gentleman from Massachusetts, to wit: "All the gentleman likes to have his words characterized as bunk, that's all right with us." A few minutes later the conversation reached the point where the gentleman at the podium where the

Bellevue Groups Win Show Prizes

HAILEY, March 26.—The Bellevue civic group won first prize of \$75.00 for the presentation of "Glowing Through the Park One Day" at the American Legion "Leisure" show. The show was directed by Max Williams, McGeehan and Mrs. George Merrick.

Costumes were arranged by Lester Larsen and the stage setting was arranged by Ed Harper.

The \$25 second prize went to Bellevue school with a lumbar stage directed by Wayne Toyer. Third prize of \$12.50 went to Tom Hutton, Sun Valley, for his "Musical Adventures in Chalk."

Party Features 'Back-to-School'

A back-to-school party was the feature of a housewarming held in the new northern Memorial school recently by the Immanuel Lutheran church. The back-to-school theme was carried out in the costumes of the guests with the men in overalls and the ladies in print dresses and pigtail. Back lunches were brought by those attending, and coffee was served by a committee composed of Mr. and Mrs. Leslie Lide, Mr. and Mrs. Elmer Ihler and Mr. and Mrs. Carl Putzier.

Dealers Fear Auto Demand Exaggerated

DETROIT, March 26 (UP)—The estimated backlog of 5,000,000 unfilled new car orders apparently is beginning to look a little exaggerated to the automobile merchandisers.

To "obtain facts on the situation regarding cancellations as well as unfilled orders," the National Automobile Dealers' association is planning a survey through state and major local car dealer associations. These later organizations, through questionnaires, will in turn seek information from individual dealers.

The surveys will not reach all new car dealers and as a result will miss some bona fide orders, but it should give the best information obtainable concerning how new car business is holding up, particularly with respect to the extent of cancellations and the reasons given for them.

In the exuberance following V-J day a lot of fantastic estimates of accumulated automobile business were given out; some enthusiastic sales executive asserted that industry could not catch up with the demand if it produced at top levels for five years.

Others declared there was an immediate demand for upward of 12,000,000 new passenger automobiles; they reached their total by merely adding up normal production for nearly four years—the wartime period during which no civilian cars were made.

Nobody in the car industry visualizes demand for new vehicles as drying up; but most of the sales chiefs and competent industry observers know that it already has begun to level off. This undoubtedly is due chiefly to the price spiral that put the lower-end vehicles in what before the war was the medium-price bracket.

Indeed, he may have been the public relations genius who started the propaganda to get him amnesty in the United States and a new charter in the narcotics trade. ARE WE SCUTTLING U. N.?
Does the new policy of the United States government (or of President Truman) threaten to scuttle the United Nations? Or is it simply that this new policy is so different from America's customary role that what seems to be danger is largely surprise?
The answer is pretty much a matter of personal opinion, which will emphasize one view or the other. But it doesn't really seem that the Truman has injected quite the element of peril into world affairs that some people claim.

Since the war the world has clearly recognized that the United States is one of the two leading powers. Now the President suggests that the United States actively assume that leading part.
This action is not in the peacetime American tradition. But would it change the picture so much? Britain has been spending money in Greece and maintaining troops and military and civilian advisers there. Russia has consistently opposed the present Greek government.

THAT DOG POISONER AGAIN
Between 25 and 30 Jeromes men have donated from \$5 to \$50 apiece to a reward fund for the capture of a dog poisoner operating in that city.
Not only is there a wave of resentment against the poisoning of dogs, but there is much apprehension over the possibility of children being poisoned.
There is reason for this fear because youngsters have been finding weinners loaded with strychnine and paraffin—apparently thrown about at random from a car.
Each season during the last several years there has been an epidemic of dog poisoning in Jerome, apparently the work of some fanatic. At least five dogs are known to have died from poison so far this spring, and poison is suspected in the deaths of three others.

Views of Others
No American wants communism tittering in or creeping in or hounding in or being elected into our institutions. The only question is of method.
Once we get to outlaw alcoholism by fiat, by a law. What we tried to do that experiment noble in purpose was utterly stupid. We tried to make a glass of port with your dinner, or a scotch and soda before them, into lawbreakers bitter against their government. We turned youngsters who never have thought of drinking anything more violent than a pineapple soda into crazy young alcoholics with no respect for the law of the land, nor for the parents who were leaving them alone to do as they pleased while the parents got along on bad liquor which blinded them from their physical as well as morally.
We meant well with the prohibition amendment, but the method was wrong.

TROLINGER'S

Lecturer for Church Gives Address Here

Richard P. Verrill, New York City, member of the board of leadership of the Mother church, First Church of Christ, Scientist, Boston, Mass., delivered a lecture upon "Science: The Impersonal Saviour" Tuesday evening at the Bickel school auditorium in Twin Falls.

The lecturer was introduced by John L. Schein, and he emphasized that in the modern era of inventions, the spiritual welfare of mankind should be given its share of scientific attention.

"From time immemorial, humanity has felt the need of religious faith," Lecturer Verrill stated. "In fact it has been said, 'If God did not exist, it would be necessary to invent Him.' For the modern era of inventions, the spiritual welfare of mankind should be given its share of scientific attention."

"The age through, however, is more perfect acquaintance with the divine Science, by means of which the receptive and loving influence of the only true God can be more effectively demonstrated," the speaker continued.

He pointed out that in the light of Christian Science may be seen the reunion of the sciences—departments of knowledge—science, theology and medicine—which were at one time in the practice of Christ Jesus.

In the study and practice of Christian Science, the fundamental fact is being constantly reaffirmed. The first is the ever-availability of the infinite mind to meet the needs of the human race. The presence in each individual of a corresponding capacity to receive and use the unlimited blessings continually flowing from God, the eternal source.

"The divine Science discovered by Mary Baker Eddy provides the most effective means for obtaining and keeping available the spiritual wealth contained in the Scriptures," he remarked. "It has already introduced the greatest revival of Bible study since the translation of the sacred writings into current speech."

While Christian Science as the impersonal Saviour has always been present, he pointed out, it was nevertheless unknown to humanity until it reappeared to this age as the Science which explains the Scriptures.

In closing, the speaker reminded the group that there is no substitute for genuine Christian Science. Any more than there are alternatives for the truth.

"The man, Christ Jesus, will always stand as the perfect model of Christian character and as our only Way-shower to eternal life," he said. "In like manner, Mary Baker Eddy will always remain the discoverer of Christian Science, the author of its textbook, 'Science and Health with Key to the Scriptures,' and the Founder of the Church of Christ, Scientist, with its many branches and activities, all of which point us to Christ, who is the Way," he added.

Christian Science is truly the Impersonal Saviour, for it fulfills man's high destiny, which is to glorify God and to enjoy Him forever," the lecturer concluded.
